## Rehabilitation

### To help with the reintegration into society, we support with

- Finding accommodation, work, school or apprenticeship,
- Administrative matters (Establishing of contact, Termination etc.)
- Consultancy with personal or precarious life situations and establishing contact with advisory services if necessary (such as debt counselling for instance)
- Everyday life and leisure activities

## Support for relatives

With their support the Association tries to connect (transmit) the mutual expectations, needs and desires between former delinquent or delinquent imprisoned people and their relatives.

In addition, the relatives get the opportunity to gather information about the structures of the penal system.

The association helps to find answers to questions like:

- How is everyday life like for the imprisoned person?
- What am I allowed to take to a visit?
- Are there specific hours for calls?
- How do we raise our children despite the imprisonment?

## Preventive work

To prevent delinquent behavior OYA e.V offers a comprehensive range of preventive measures.

Such as:

- Social training
- Conflict-, and De-escalation training
- Violence prevention

The various measures are needs-based and target group-oriented. In addition, the trainings are accompanied by people who overcame a delinquent past themselves.

## Educational work

Are you interested in the reasons of how & why people can develop delinquent behavior? Then we are the right place to ask.

We provide well-founded expertise and professional knowledge in this field.
